WORLDWIDE CONNECTIONS

ISO 9000:2008

Johan Smit Fasteners Holland

For more than 140 years Johan Smit Fasteners Holland have been a manufacturer and supplier of fasteners in the petrochemical, steel construction and energy market.

JS services these industries with wide product range, product quality, traceability, service and constant expansion to satisfy the new market requirements.

We deliver these items utilizing our extensive inventory system and our long run manufacturing facilities specialized on nuts for all imperial or metric sizes under ASTM A194, ASME B.18.2.2, DIN 934 H=D, EN 14399 Class 10. We have the ability to service other specifications as special type orders per customer request. Our full traceable marking in our nuts is well known and accepted by the industry as an added value.

Our approved quality system, wide range of testing equipment and experienced personal ensure and support our stability in business relations and reputable name worldwide.

Finally reliability, flexibility, on-time delivery and quick response are our standards.

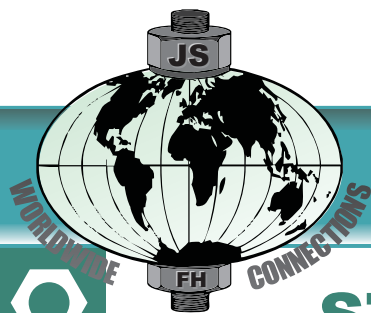

Our expansion program involves the addition of special materials as **Incoloy, Inconel, K-Monel, Monel 400, Hastelloy, Alloy 20, Alloy 400, Duplex 2205, Super Duplex, Silicon Bronze** into our inventory of nuts and stud bolts.
